Job Description

If you are a System Integration Intern professional looking for an opportunity to grow your career, Emerson has an exciting opportunity for you! Based in Round Rock, Texas, this Summer 2027 internship offers hands-on experience within our Process Systems and Solutions business, where you will contribute to innovative automation technologies that help manufacturers operate more efficiently and effectively. Working alongside experienced mentors, you will gain practical exposure to software testing, process control systems, system integration, and technology solutions that support world-class industrial automation products across web, cloud, PC, and embedded platforms.

In This Role, Your Responsibilities Will Be:

- Develop and enhance software tools that improve testing efficiency, effectiveness, and productivity.
- Learn and apply DeltaV™ Distributed Control System technologies while supporting the maintenance and improvement of testing environments.
- Configure and implement control strategies, graphics development, and system improvements within DeltaV environments.
- Collaborate with experienced engineering and technology professionals to solve technical challenges and support product quality initiatives.
- Participate in testing, troubleshooting, and continuous improvement activities that contribute to reliable and innovative automation solutions.
- Document processes, findings, and recommendations to support project goals and knowledge sharing.

Who You Are

You collaborate effectively with others to achieve shared goals and contribute to a positive team environment. You generate useful ideas that are new, better, or unique and apply creative thinking to improve outcomes. You actively seek opportunities to develop new technical skills, knowledge, and capabilities that enhance personal and business performance. You adapt quickly to new situations, embrace learning opportunities, and apply new experiences to solve challenges and deliver results.

For This Role, You Will Need

- Currently enrolled in an accredited college or university pursuing a bachelor's degree in Chemical Engineering, Electrical Engineering, Computer Science, Computer Engineering, or another related STEM discipline.
- Ability to manage responsibilities independently while meeting established deadlines.
- Strong attention to detail and commitment to delivering high-quality work.
- Effective problem-solving and analytical thinking skills.
- Legal authorization to work in the United States without sponsorship, now or in the future.

Preferred Qualifications That Set You Apart

- Previous internship, project, research, or other practical experience in a technical or professional setting.
- Exposure to software development, automation systems, controls engineering, testing, or related technologies.
- Strong written, verbal, and visual communication skills.
- Demonstrated curiosity, initiative, and a continuous improvement mindset.
- Ability to approach challenges creatively and develop innovative solutions.
- Interest in industrial automation, process control systems, and emerging technologies.

Our Culture and Commitment To You

At Emerson, we prioritize a workplace where every employee is valued, respected, and empowered to grow. We foster an environment that encourages innovation, collaboration, and diverse perspectives—because we know that great ideas come from great teams. Our commitment to ongoing career development and growing an inclusive culture ensures you have the support to thrive. Whether through mentorship, training, or leadership opportunities, we invest in your success so you can make a lasting impact. We believe diverse teams working together are key to driving growth and delivering business results.

As an intern, you will have opportunities to learn from experienced professionals, expand your technical capabilities, and contribute to meaningful projects that make a real impact. Emerson offers a comprehensive internship experience that may include:

- Structured onboarding, training, and development opportunities.
- Competitive pay and monthly housing assistance, where applicable.
- Paid holidays during the internship period.
- Medical, dental, and vision coverage for eligible participants.
- A collaborative, inclusive, and innovative work environment.
- Opportunities to take ownership of meaningful assignments and interact with customers and stakeholders.

- Exposure to global teams, technologies, industries, and markets.
- Immediate eligibility for the 401(k) program.
- Access to the Employee Assistance Program (EAP).

About Us

WHY EMERSON

Our Commitment to Our People

At Emerson, we are motivated by a spirit of collaboration that helps our diverse, multicultural teams across the world drive innovation that makes the world healthier, safer, smarter, and more sustainable. And we want you to join us in our bold aspiration.

We have built an engaged community of inquisitive, dedicated people who thrive knowing they are welcomed, trusted, celebrated, and empowered to solve the world's most complex problems — for our customers, our communities, and the planet. You'll contribute to this vital work while further developing your skills through our award-winning employee development programs. We are a proud corporate citizen in every city where we operate and are committed to our people, our communities, and the world at large. We take this responsibility seriously and strive to make a positive impact through every endeavor.

At Emerson, you'll see firsthand that our people are at the center of everything we do. So, let's go. Let's think differently. Learn, collaborate, and grow. Seek opportunity. Push boundaries. Be empowered to make things better. Speed up to break through. Let's go, together.

Work Authorization

Emerson will only employ those who are legally authorized to work in the United States. This is not a position for which sponsorship will be provided. Individuals with temporary visas such as E, F-1(including those with OPT or CPT) , H-1, H-2, L-1, B, J or TN, or who need sponsorship for work authorization now or in the future, are not eligible for hire.

Equal Opportunity Employer

Emerson is an Equal Opportunity/Affirmative Action employer. All qualified applicants will receive consideration for employment without regard to sex, race, color, religion, national origin, age, marital status, political affiliation, sexual orientation, gender identity, genetic information, disability or protected veteran status. We are committed to providing a workplace free of any discrimination or harassment.
