Full posting text

7-Eleven is an iconic family of brands with over 86,000 locations, surpassing every retailer in the world. We revolutionize convenience, restaurants and fuel through cutting edge innovation — working hard to be the customer's first choice. 7-Eleven empowers our employees to "activate awesome" and make a meaningful impact in their stores and communities every day. If you're ready to grow, lead and make a difference, come join our team and help shape the future of convenience.

We Began As An Original. We Remain An Original At The Top Of The Convenience Industry. Our company invented the concept of convenience retailing. But we didn’t stop there. 7-Eleven® has captured the world with a proven willingness and ability to innovate. We were the first company in America to offer fresh-brewed to-go coffee. More than six million of our Slurpee® beverages have been sipped since 1966. And, to continuously stay ahead of the curve, we introduce more

than 2,500+ new products each year.

With over 86,000 global locations, 7-Eleven Inc. is the world’s largest operator, franchiser and licensor of convenience stores and is also one of the nation’s largest independent gasoline retailers. The company continues to achieve operational accolades, win awards in franchising and drive innovation in retail in the mission to make life a little easier for our guests by being where they need us, when they need us.

Launch your career with real-world impact. Our Internship Program gives you the opportunity to build deep experience in a specific functional area while contributing to a meaningful business project. Build your professional network, learn directly from senior leaders, and gain a behind-the-scenes view of how the business works - bringing our strategy to life. With guidance from a dedicated coach and opportunities to connect across the organization, you will build valuable relationships, broaden your business perspective, and finish the summer by showcasing your work to functional leaders.

The paid internship takes place during Summer 2027. You will gain practical experience, grow your professional network, develop in-demand skills, and help shape the future of merchandising at the world’s largest convenience retailer.

The Demand Planning Intern will support the team through data analysis, reporting, forecast performance measurement, and process improvement initiatives while gaining hands-on experience with demand planning tools, retail supply chain operations, and cross-functional business partnerships. The role provides opportunities to develop analytical, communication, and presentation skills while contributing to key business objectives.

Key Duties And Responsibilities

- Support the creation, automation and maintenance of Demand Planning scorecards, inventory tracking dashboards, and recurring reports.
- Assist demand planning teams in analyzing forecast accuracy, demand trends, and key performance metrics to support business decisions.
- Participate in forecast reviews and planning meetings to gain exposure to demand forecast methodologies and retail planning processes.
- Partner with Demand Planning, Replenishment, Merchandising, and other cross-functional teams to support business initiatives and planning processes.
- Conduct ad hoc analysis to identify business trends, risks, opportunities, and process improvement recommendations.
- Prepare presentations, reports, and business insights for leadership reviews and strategic discussions.
- Contribute to projects focused on reporting automation, analytics enhancement, and continuous improvement.

Specific Knowledge And Skills

Pursuing a Bachelor's or Master’s degree in Industrial Engineering, Business Analytics, Data Analytics, Quantitative Management or related field and graduating December 2027 or May 2028Showcases ability to thrive in a fast-paced environment and manage multiple competing priorities while consistently executing at a high levelExperience in taking multiple data points to form a storyline that can effectively illustrate the business case problem and solution and communicate key takeaways to different audiencesExperience with Microsoft office suite and data analysis tools (Python, PowerBI, Data Lake, Databricks, etc)Excellent written and verbal communication skillsExcellent problem-solving skills with strong attention to detailProvide excellent customer service to Demand Planning organization through analytics, execution, and verification

If an hourly or salary range is included in this ad it represents the range 7-Eleven in good faith believes is the range of compensation for this role at the time of this posting. The Company may ultimately pay more or less than the posted range. This range is only applicable for jobs to be performed in this state. This range may be modified in the future. No amount is considered to be wages or compensation until such amount is earned, vested, and determinable under the terms and conditions of the applicable policies and plans. The amount and availability of any bonus, commission, long-term incentive compensation, benefits, or any other form of compensation and benefits that are allocable to a particular employee remains in the Company's sole discretion unless and until paid and may be modified at the Company’s sole discretion, consistent with the law.
