About Graphic

At Graphic Packaging International, we produce the paper cup that held your coffee this morning, the basket that transported those bottles of craft beer you enjoyed last weekend, and the microwave tray that heated your gourmet meal last night. We’re one of the largest manufacturers of paperboard and paper-based packaging for some of the world’s most recognized brands of food, beverage, foodservice, household, personal care and pet products. Headquartered in Atlanta, Georgia, we are collaborative, diverse, innovative individuals who create inspired packaging while giving back to our communities.

With over 25,000 employees working in more than 130 locations worldwide, we strive to be environmentally responsible in our industry and in the communities where we operate. We are committed to workplace diversity and offer compensation and benefits programs that are among the industry's best to reward the talented people who make our company successful.

Why join Graphic Packaging Waco. Inspired, Paperboard Packaging that meets the needs of Consumers and Our Planet.

Innovation & Sustainability: Our Waco facility will produce recycled paperboard using the industry's most advanced technology, supporting a healthier planet.

Community Impact: Situated in the Heart of Texas, our facility will significantly contribute to the local economy and the global movement towards a circular economy.

Career Growth: Starting your career, looking to advance, we offer challenging opportunities and a pathway for growth.

Be a part of Something Bigger: Together, we're shaping a renewable future and delivering sustainable solutions for the world's most recognized brands.

Join us at our New State-of-the-art coated recycled board facility in Waco, TX for an amazing career opportunity.

A World of Difference. Made Possible

Job Details

Why a GPI internship or co-cop?

Internships and Co-op are a pipeline to our full time Leadership Development Program (LDP) LDP is designed to be a highly visible, 12-month leadership

program designed to develop operational, business and leadership skills. The program provides FastTrack industry experience through structured learning and a hands-on approach. LDP includes

full time tracks in roles in operations, sales, engineering, finance, supply chain and others.

GPI is committed to developing leaders in our organization. GPI strives to create a safe, high performance and inclusive culture. GPI provides competitive salaries and benefits packages for salaried employees. GPI is known for exceptional relocation packages. GPI is passionate about serving the community through three target pillars: Preserving the environment Putting food on the table Investing in education

JOB FUNCTION: Job functions include but are not limited to the following.

- Provide support for Continuous Improvement projects at the Waco Mill. Depending on area assigned and major, you may work with projects that involve process improvements, equipment reliability, process control, and/or support trials and investigations of new technologies.
- Assist in the design, testing, and analysis of manufacturing processes and equipment.
- Develop and maintain manufacturing documentation, including process sheets and work instructions.
- Conduct research to identify new manufacturing technologies and methods.
- Work with the engineering team to troubleshoot manufacturing issues.
- Participate in the development and implementation of continuous improvement initiatives.
- Help in the design and execution of experiments to optimize manufacturing processes.
- Assist with the implementation of quality control processes and procedures.
- Participate in safety training and adhere to safety protocols in the manufacturing environment.
- Provide support in various projects as needed, which may include drafting reports and presenting findings.
- Drive best practices in safe operations and ensure the safety of all operations, maintenance and staff personnel.
- Needs to be self-starter, be self-directed, take initiative to move forward with ideas, be committed and be able to work with and influence others.
- Must learn quickly to analyze data.
- Lead one or more projects that will be started and completed within the summer.
- Assist in writing standard operating procedures and training manuals.

- Present to the department and site leadership team periodically, and to the Lead Team at the end of the internship.

Education

Pursuing bachelor’s degree in chemical engineering, Mechanical Engineering, Electrical Engineering, or Pulp & Paper Science preferred. Will consider other engineering disciplines.
