Mativ is a global leader in specialty materials headquartered in Alpharetta, Georgia. The Company offers a wide range of critical components and engineered solutions that connect, protect, and purify our world.

Location: Lowville,NY

Description

Process Engineer Intern - NY

Starting Pay : $22.00-$25.00/hr., depending on experience

Schedule : This is typically a Monday through Friday daytime role, but evening and weekend work may be required.

Mativ is actively pursuing a process engineer intern with a Paper Science, Chemistry or Engineering background to complete a 10-week internship program at our Lowville Mill starting in May 2027. The Intern will provide exposure to many aspects of operations including a multi-functional team setting, real-time production, process experience and project work with specific deliverables and exposure to the mill leadership team. Intern will participate in mill and production line operations to learn technical properties and quality issues of paper or paper-based materials.

Ideal candidates will possess high initiative and drive, with a curiosity to perpetually learn and improve our business. Key requirements include the ability to analyze information to find opportunities, effectively communicate, and work collaboratively in a team setting.

Responsibilities

Follow all safety procedures and promote a safe work environment . Work with the team on process efficiency improvements, cost savings and/or technology advancement. Update existing mill documentation and drawings. Identify paper defects and develop plans to resolve them. Participate in new customer or new product trials. Attend meetings with leadership team and report out on assigned tasks. Work with leadership to modify or create standard operating procedures. Project work as assigned by mill management.

Qualifications

Required

Individual must be currently enrolled and working toward a degree with a concentration in a Paper Science, Chemistry or Engineering discipline. Completion of a minimum of 1-full year of course work with preference for individuals who have completed 2-full years. Must have solid Microsoft Office skills, particularly in Excel. Ideal candidates will possess high initiative and drive, with a curiosity to perpetually learn and improve our business. Key requirements include the ability to analyze information to find opportunities, effectively synthesize and communicate findings, and work collaboratively in a team setting. Ability to pass pre-employment physical capabilities test, pre-employment drug/alcohol screening and a background check. Must be at least 18 years of age. Ability and willingness to meet our operators where their work is done on the operating floor and wear required PPE when doing so.

Preferred

Preference is a minimum 3.0 GPA in your academic field of study. Prior internship experience

Required Skills/ Abilities

Excellent verbal and written communication skills. Excellent organizational skills and attention to detail. Ability to meet deadlines and to work independently. Proficient with Microsoft Office Suite or related software. Demonstrated project management skills and ability to balance multiple assignments at once. While performing the routine duties of this position, the candidate must be able to stand, sit, walk, talk, bend, twist, balance and possess good close vision and depth perception.

WHAT WE OFFER
